

Meyer Sound Heard Around the World

Discriminating venues and artists the world around choose Meyer Sound to meet their audio needs and solve their sound problems. Wherever quality counts, Meyer Sound is heard.

performing with the world's best

“ When I work with Meyer Sound loudspeakers, I feel that I have the backing of the company itself. The individuals who work at Meyer have a personal interest in making the final product, in my case, the production, sound as good as it can, and they will aid you in doing that well beyond just selling you a product.

Jonathan Deans

Sound Designer
Cirque du Soleil®
(Corteo, Mystère,
Saltimbanco, La Nouba,
“O”, KÁ, ZUMANITY),
Ragtime, Seussical, Lestat,
The Pirate Queen

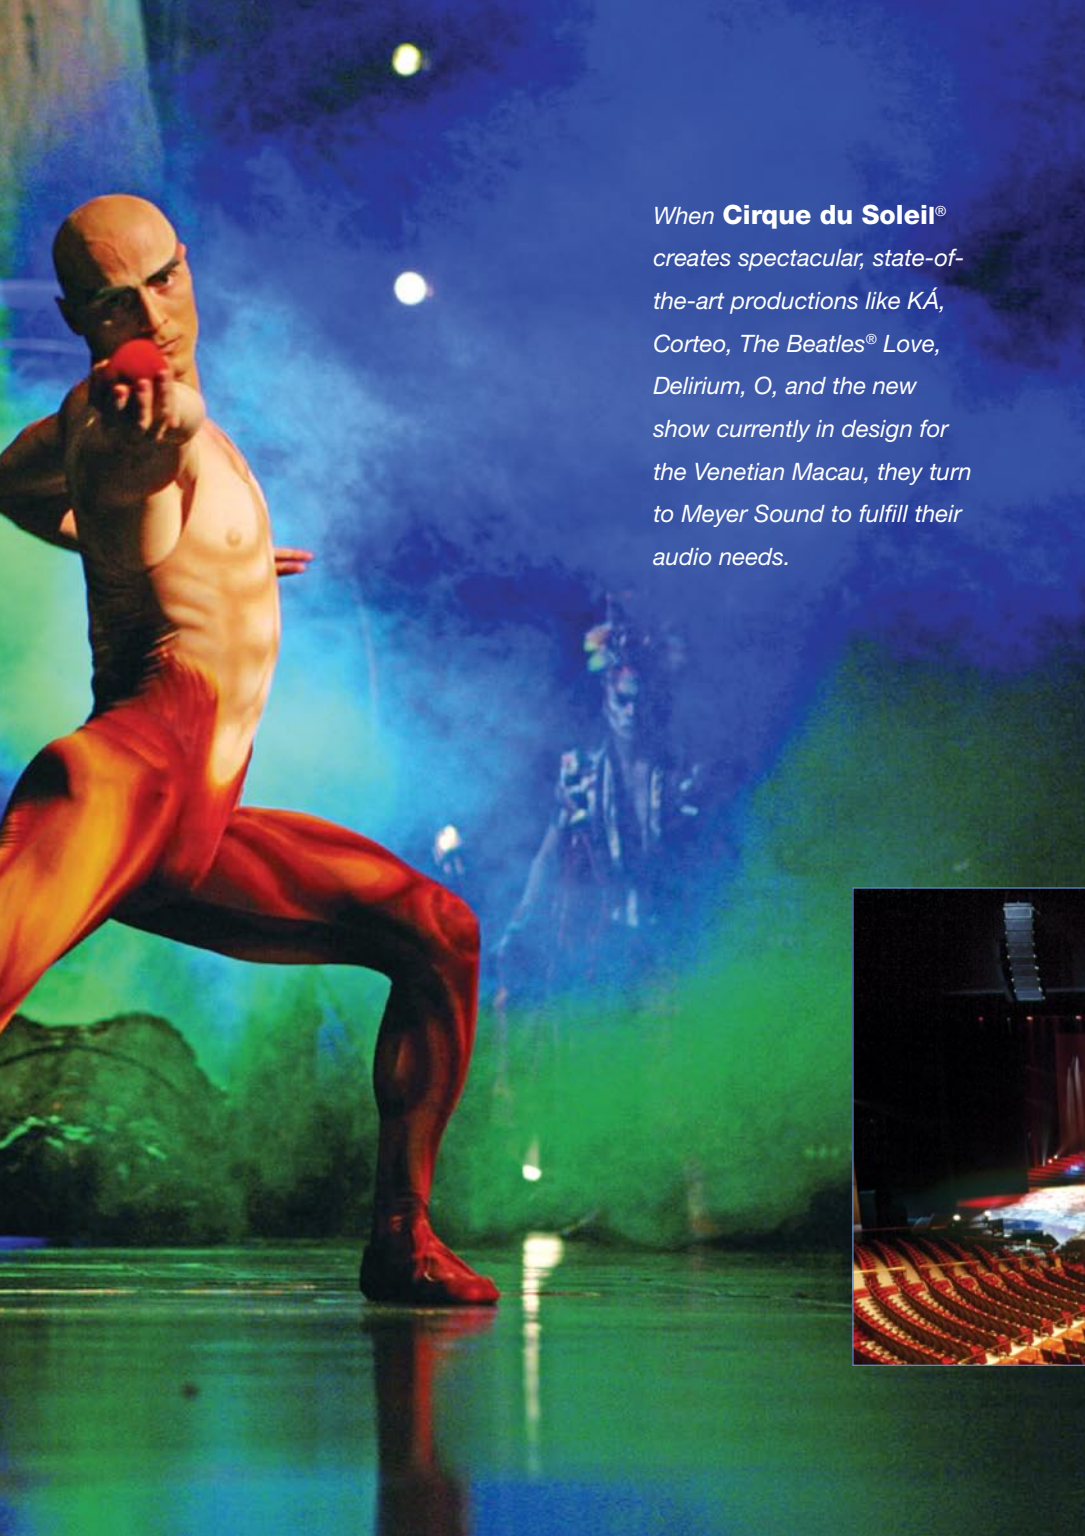

Metallica, Rehearsal Studio

*Carnegie Hall
New York*

When **Cirque du Soleil®** creates spectacular, state-of-the-art productions like *KÁ*, *Corteo*, *The Beatles® Love*, *Delirium*, *O*, and the new show currently in design for the Venetian Macau, they turn to Meyer Sound to fulfill their audio needs.

“On Broadway shows, you want the loudspeakers to disappear to the ear as well as the eye. Fortunately, the Meyer speakers do just that. John Meyer knows what he is doing, and he does what he does so I can do a better job of doing what I do.

Helen and John Meyer

Corporate Overview

Founded by John and Helen Meyer in 1979, Meyer Sound has spent nearly three decades meeting the real-world needs of venues, sound designers, and artists. The company works closely with professionals in all areas of sound reinforcement, providing tools and on-site support to ensure the best possible sound for installations, events, and tours.

As a privately owned company, Meyer Sound is able to pursue its goals without compromise and be immediately responsive to customers' requirements.

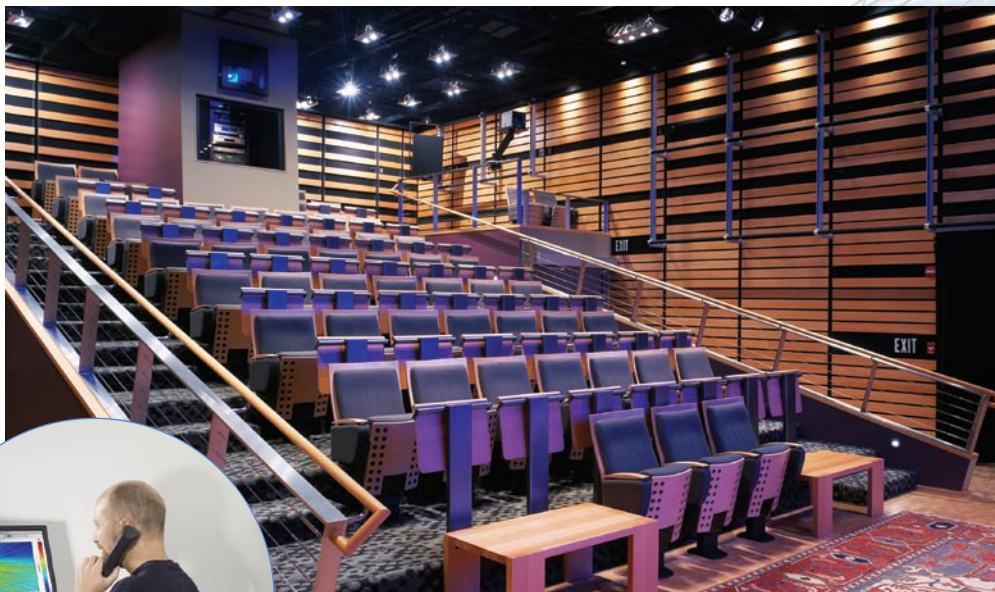

Products

Meticulous attention to detail and extensive measurement characterize Meyer Sound's rigorous approach to designing products. Meyer Sound products are made at its factory in Berkeley, California, where every aspect of manufacturing is supervised and controlled directly by John Meyer and senior engineering, production, and quality assurance staff. This constant interaction allows Meyer Sound to continuously analyze production methods and implement improvements immediately. Precision manufacturing and exhaustive quality controls ensure that Meyer Sound products achieve the highest standards of performance and appearance and maintain them for years.

Awards and Patents

Meyer Sound has received widespread recognition for its innovations, including numerous awards from within the audio industry, as well as a prestigious R&D 100 award, given to the top 100 engineering accomplishments in any field, worldwide. Meyer Sound has also been issued 36 U.S. and foreign patents, with more pending.

Meyer Sound Customer Service

Service and Support

When you purchase Meyer Sound, you get more than just the product. Meyer Sound's Design Services group and acoustical staff provide consulting services to ensure the best acoustical environment and most appropriate selection and deployment of Meyer Sound products for the client's needs. Meyer Sound customer service and technical support are known throughout the industry for their thoroughness, deep technical knowledge base, and accessibility anywhere around the globe. As a company, Meyer Sound is dedicated to meeting the needs of its customers.

Global Reach

Wherever you work, you'll find Meyer Sound. An international business from its earliest days, Meyer Sound has established offices around the world in order to provide local sales and support. Meyer Sound also strategically locates technical support staff around the globe in order to assure fast, on-site help for customers.

Meyer Sound's worldwide seminar programs provide practical, science-based technical training to our customers' audio staff to help them get the most from their Meyer Sound systems.
